

## Bluetooth POS Adaptor

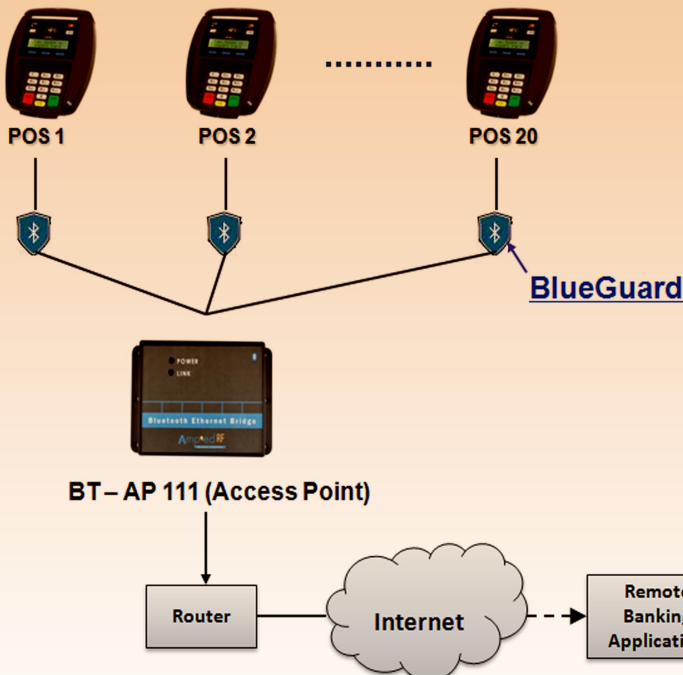

Amp'ed RF Technology presents our Bluetooth payment adaptor, BT- POS111, for ViVOTech's 8000 series point-of-sale readers. The BT-POS111 is a Bluetooth enabled PCB card, including battery supply, mounted inside the ViVOPay reader to provide a pay-at-the-table reader solution.

### Benefits:

- Pay at the table reader solution.
- Quicker user checkout
- Compatible with Bluetooth receipt printers
- Strong data encryption BlueGuard- 3DES
- PCI approved
- Long range option, up to 120m
- Chargeable battery included
- Battery run time up to 3 hr
- Connects with our Bluetooth Access Point or Bluetooth USB adaptor

## Bluetooth Access Point

Combined with our POS adaptor (BT-POS111), the Bluetooth access point (BT-AP 111) offers ethernet connectivity for up to 20 "tether free" card readers.

Payment card information is transmitted to our Bluetooth Access Point, and forwarded via secure ethernet to your payment processing service provider.
